

## Voting Cascades

Essential to our get out the vote effort, voting cascades build upon the influence voters have on other potential voters. Saying "I'm voting" to people you know will influence them to vote. In turn, they influence their own circle of friends/family/acquaintances. It is essential to share the fact of your voting in time for your friends/family/acquaintances to cast their ballots. Everyone has a circle of people they know and can influence. Also, ask your friends to ask their friends to vote to keep the cascade going.

***Write the names of 10 people you pledge to influence by sharing that you voted.***

-----

I \_\_\_\_\_ pledge to ask the 10 people I wrote down to vote in the upcoming elections, the primary in August 2018 and the final election in November 2018. Further, I will encourage the people on my list to influence 10 other people they know to vote as well.
